

For everyone looking
for an experience!

Welcome to the Grünwald Recreation Center – “Grünwald Freizeitpark”

120.000 m² where kids and adults can play, run, swim, climb, skate, and play soccer to their heart's content. Majestic old trees spread their branches over the sprawling park located on the south edge of Munich. The park offers a wide variety of sport and recreational facilities for all ages, as well as modern workshop and conference rooms.

Enjoy indoor and outdoor pools, soccer facilities and other exceptional features like a beach volleyball court, a climbing tower and a small skateboard park with a half pipe.

Soccer fans have an added reason to stop by: the grounds of the Grünwald Freizeitpark were once home to the “Sportschule Grünwald”, the cradle

of Germany's legendary soccer World Cup win in 1954. It was here that Sepp Herberger trained his successful team. The venue was later reborn as the Grünwalder Freizeitpark and opened to the public in 1994.

SPORTS

The spacious playing fields – three grass fields, one hybrid turf for soccer, and one artificial turf for hockey – offer more than 20.000 m² for goal-getters, little dramas, and big victories.

The fields can be rented by groups such as athletic clubs, recreational leagues, or companies sponsoring tournaments.

Our facilities can be used for a variety of trend sports: rollerblading, indoor hockey, skateboarding, climbing, beach volleyball, softball, and baseball.

Check out the 8 m tall climbing tower for various skill-levels and the fun box with half pipe!

Our modern and functional gymnasiums provide the perfect environment for school and recreational sports. Four differently equipped gyms, ranging from 120 – 800 m² are ideal for every kind of sport.

The tennis facility, comprising nine outdoor and seven indoor courts, is run by the company ElterSports.

SWIM COMPLEX

The heated outdoor pool and the lovely indoor pool and sauna landscape make a passionate swimmer's heart beat faster all year round. Indoors, you will find a training pool with 25 m lanes and a recreational swim area. Plenty of lounge chairs and a café are available for your refreshment.

Surrounded by a spacious lawn for sunbathing, the outdoor pool offers several attractions: a vortex, lounge seats in bubbling water, and massage cascades. Our smallest guests have their own pool with water play elements in each swimming area.

SAUNA

The sauna landscape offers five different saunas, a cold water plunge pool, Kneipp water treading, foot-baths, a sauna garden, two relaxation rooms with heated lounge chairs, and a large rooftop deck. A rain and luxury shower, crushed ice basin, hourly aromatic “löyly”s, skin peelings, separately bookable massages, and special wellness events make you feel as if you’ve gone to a day spa.

ICE-SKATING RINK

Another highlight of the outdoor facilities is the 1.400 m² multi-use court. In winter it transforms into an ice skating rink. In summer, it becomes a surface for skaters and basketball players.

A snack bar beside the court supplies athletes and guests with hot and cold snacks and drink year-round.

CONFERENCE & SPECIAL EVENT ROOMS

In addition to the large recreational and sport facilities, the Grünwalder Freizeitpark provides rooms of various sizes for all kinds of seminars, workshops, small exhibits, and celebrations. The beautiful park ambience makes your event uniquely memorable.

Modern and diversely equipped, every room has its own character: a first-class salon for small group discus-

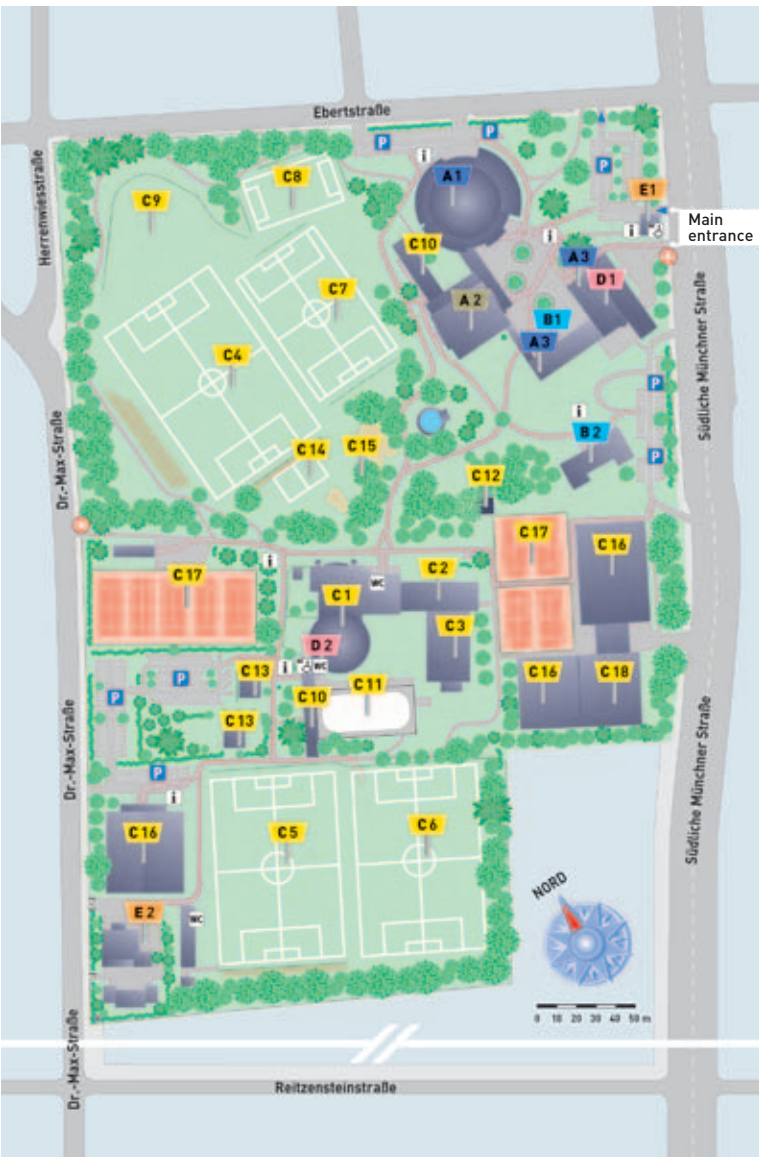

sions, bright and functional meeting rooms, an architecturally attractive foyer for receptions, a university-style lecture room, and an elegant dining room with bar. Modern conference technology, first-class event service, and excellent catering perfect your event. You may choose to use the park or its sporting facilities for associated team-building and small-group exercises or for other creative program elements.

PLAYGROUND

This uniquely designed play area opened in its current form in 2011. You'll be won over by the high-quality play equipment and free play areas, emphasizing natural materials which harmonize with the surroundings. Each age group has its own area providing developmentally appropriate play opportunities. For small children, there are playsets, slides, spring riders, and plenty of sand! Kids will love the swings, zip line, large sand and water play landscape, and a large play system with towers, platforms, a suspension bridge, and slides. Teens enjoy the beach volleyball court and small skate park with a fun box and half-pipe.
